Java and JGRASP Installation

The following instructions help you install Java JDK (J2SE) and JGRASP development environment on your laptop or home computer.

Must install Java before JGRASP.

1) Go to http://www.oracle.com/technetwork/java/javase/downloads/index.html and click on Java SE icon) to see available download for different operating systems.

   For Windows systems, you have options for 32-bit (x86) and 64-bit (x64). Download the latest version (*Java Platform (JDK) 8u112*) compatible with your computers. Must check the button "Accept License Agreement"

Windows x86	188.99 MB	jdk-8u112-windows-i586.exe
Windows x64	195.13 MB	jdk-8u112-windows-x64.exe

   If you use Mac or other OS, there are downloads for these operating systems.

   Read and follow the installation instructions (link under the download button).

   Important: *The JDK must be successfully installed before installing JGRASP IDE below.*

2) For the Integrated Development Environment (IDE), got to JGRASP home page (http://www.jgrasp.org) and download the current version. Click the download icon (top-right corner) and save the executable file on your desktop. Then, run (double-click) the downloaded file to install jGRASP after you have installed Java JDK compatible with your operating system.
